

The leading platform of peer-reviewed literature that helps you move your research forward.

Built on the widest range of trusted, high-quality, interdisciplinary research, ScienceDirect helps you find answers to your most pressing research questions, stay on top of your field, and gain in-depth insights into trending research topics as you take your next steps in discovery.

- 2,500 journals, 16 million articles
- 39,000 e-books, including books, book series and major reference works
- Digital archives that reach as far back as 1823

High-impact publications

Elsevier's stringent publishing standards guarantee the highest quality. Publications are guided by eminent editorial boards and papers are rigorously peer-reviewed. Our authors, editors and contributors are experts in their fields, which include:

- Physical Sciences & Engineering
- Life Sciences
- Health Sciences
- Social Sciences & Humanities

Why choose ScienceDirect

ScienceDirect focuses on empowering you within the world of research to help you stay ahead in your field, discover more breakthroughs, accelerate the pace of discovery and manage your research.

Increase your understanding of new terms and concepts with in-article links to 330,000+ topic pages

Open the door to new paths of discovery based on your recent signed-in activity with Recommendations

Access from anywhere with best-in-class remote access and responsive design across devices

Manage your research. Download multiple documents to store, print and share responsibly with colleagues, or share directly through the social media icons in the article page. Download articles to Mendeley, RefWorks and other tools to annotate and collaborate with others online

Keep track of what you're reading and ensure you can find useful articles again when needed with Reading History

ScienceDirect shortens the research process, saving an average of 47 minutes a day

Books and journals on ScienceDirect: unlock the power of co-usage

ScienceDirect is uniquely positioned to provide book and journal content interlinked on one platform for seamless research.

There is a growing need for interdisciplinary research. ScienceDirect co-usage data reveals that 500,000+ books and journals are used together each month.

Open access journals

- All articles published open access are peer-reviewed and made freely available for everyone to read, download and reuse in line with the user license displayed on the article
- 250 fully Open Access journals are included, such as *Cell Reports* and *The Lancet Global Health*
